

Effective Leadership in Organizational Health, Safety and Wellness

Ontario's evolving, challenging health and community care system demands strong, capable leaders, equipped with effective management techniques.

Leaders need to ensure that the safety of their organization is a strategic priority, one based on the precautionary principal that reasonable steps have been taken to reduce risk and safeguard employee safety.

PSHSA is ready to assist organizations in meeting this challenge by offering training courses on Effective Leadership.

This full-day workshop will focus on 2 of the 5 book Effective Leadership series:

- ❑ **Book 1: Legislation, Standards and Codes-** *This introduces Ontario's laws and regulations governing occupational health and safety. Each workplace party must know and understand the legislation, standards and codes relevant to their organization.*
- ❑ **Book 3: Hazard Awareness and Control-** *No workplace or job is ever free of hazard or risk. However, knowing as much as possible about the hazards and the potential risks makes it easier to analyze and control them, and thereby achieve a safer and healthier workplace.*

2010 Dates and Locations

- ❑ **Toronto**, Oct. 29th, 8:30am-4:30pm
- ❑ **Hamilton**, Nov. 15th, 8:30am -4:30pm
