

SAFETY ENGINEERED MEDICAL SHARPS AND THE NEW NEEDLE SAFETY REGULATION

The Needle Safety Regulation, passed in 2007, will be extended to apply to the broader health sector in 2010. Workplaces such as community nursing agencies, clinics, public health units and clinical offices will be affected by the regulation.

Attend this session to learn about:

- Definitions of safety engineered medical sharps (SEMS) and safety engineered needles.
- Available statistics and research related to sharps and injuries.
- How to implement a sharps safety program
- The Needle Safety Regulation (O.Reg 474/07) under the Occupational Health and Safety Act (OHSA)

Each participating organization will be provided with one set of materials (toolkit) at no cost that includes a participant workbook.
