## *Preface*

The Ontario Safety Association for Community & Healthcare (OSACH) recognizes that motor vehicle incidents can occur during work-related activities in community and health care organizations.

OSACH wishes to support and protect sector clients and their staff by guiding the development of adequate control measures, coupled with a comprehensive program to address motor vehicle safety.

This guide will also assist community and health care organizations to establish occupational health and safety best practices and fulfill their legislative requirements under the Ontario Occupational Health and Safety Act.

OSACH is a non-profit organization designated as the Safe Workplace Association for the health care sector under the Workplace Safety and Insurance Act, 1997. Our vision is to lead Ontario's community and health care workplaces to be the healthiest and safest through innovative solutions.

# *Acknowledgements*

OSACH acknowledges and appreciates the time and expertise of the many health care professionals, organizations and associations that participated in the focus group and/or extensive review of this document. Participation does not imply an endorsement by these organizations.

These organizations committed valuable time and human resources to preview this document:

- Children's Aid Society London & Middlesex
- Comcare Health Services
- Gamma – Dynacare Medical Laboratories
- MDS Diagnostic Services
- Ministry of Labour
- Municipal Health & Safety Association of Ontario
- Ontario Nurses Association
- Paramed Home Health Care
- Transportation Health & Safety Association of Ontario
- VON South West Corporate Centre

This document was developed by OSACH Consultant Sandra Wilson with the support and assistance of her colleague Fiona MacPate and the OSACH corporate staff.

# *Table of Contents*
